

Figure 9 - Distribution by Ethnicity, CCI Target Population in Eight Pilot Counties, At July 2010

Data Highlights

Dual eligibles of Asian, Hispanic and Non-Hispanic Caucasian ancestry comprised 78% of the CCI target population. Compared to the CCI target population in the eight pilot counties, dual eligibles of Asian ancestry were represented in greater proportions in the counties of Alameda, Orange, San Mateo, and Santa Clara. African-American dual eligibles comprised 22% of the CCI target population in Alameda County and 10% of the overall CCI target population.

The counties of Los Angeles, Riverside, and San Bernardino all denoted greater proportions of Hispanics than the CCI target population in the eight pilot counties. In these counties, Hispanics represented between 31% and 35% of the CCI target population.

Figure 18 – Distribution by Ethnicity, FFS CCI Target Population in Eight Pilot Counties, CY 2010.

Data Highlights

Thirty percent of the FFS CCI target population in the eight pilot counties were classified as non-Hispanic Caucasian, 25% were classified as Hispanic, 23% were classified as Asian, and 10% were classified as African-American. The distribution by ethnicity mirrors that of the CCI target population in the eight pilot counties. The counties of Riverside, San Bernardino, and Los Angeles had greater proportions of Hispanics than the combined eight county proportions. Alameda, San Mateo, and Santa Clara all displayed high proportions of beneficiaries of Asian descent.

Table 20 – Distribution by Language, CCI Target Population in Eight Pilot Counties, CY 2010

Language	Alameda	Los Angeles	Orange	Riverside	San Bernardino	San Diego	San Mateo	Santa Clara	All 8 Counties
English	52.4%	39.5%	61.2%	57.2%	63.1%	53.4%	40.5%	32.3%	44.3%
Spanish	5.3%	19.5%	8.1%	23.2%	18.6%	16.8%	4.9%	7.7%	17.4%
Unknown	12.1%	10.2%	10.6%	15.6%	13.7%	15.9%	6.7%	7.2%	11.3%
Armenian	0.0%	7.4%	0.2%	0.0%	0.1%	0.0%	0.0%	0.0%	4.4%
Vietnamese	3.0%	2.0%	4.9%	0.8%	0.9%	4.0%	0.0%	25.5%	4.1%
Cantonese	14.3%	4.1%	0.2%	0.2%	0.3%	0.6%	27.0%	3.9%	3.9%
Korean	1.2%	4.7%	5.7%	0.5%	0.6%	0.3%	0.6%	1.9%	3.1%
Mandarin	3.6%	3.4%	1.7%	0.1%	0.3%	0.2%	3.7%	9.0%	3.1%

Data Highlights

Forty-four percent of the FFS CCI target population in the eight pilot counties reported a primary language of English. Non-English speakers ranged from a high of 68% in Santa Clara to a low of 37% in San Bernardino. San Mateo disclosed that 27% of the FFS CCI target population spoke Cantonese. This was much higher proportion than reported for all eight pilot counties, 3.9% of whom spoke Cantonese. Cantonese speakers represented 14% of Alameda’s FFS CCI target population.

Santa Clara displayed a high proportion of Vietnamese speakers (26%) relative to the eight pilot county proportion of 4%. Spanish was a top language in Los Angeles, Riverside, San Bernardino, and San Diego counties, with each county disclosing that between 17% and 23% of their respective FFS CCI target population spoke Spanish. Los Angeles County also included Armenian and Russian speakers, which represented 7% and 2.9%, respectively, of their FFS CCI target populations.
