**INLAND EMPIRE CCI Stakeholder Advisory Committee Meeting
Meeting Minutes for September 22, 2020 @ 1:30-2:30 pm**

Agenda Item	Discussion of Agenda Items	Action
I. Welcome and Introductions and Announcements <i>Randy Schlecht</i>	Introductions were made for all in attendance and those on the phone. Attendance was captured as attendees signed into the WebEx and verified throughout the meeting.	<i>No Action Required</i>
II. Acceptance of minutes from August 12, 2020 and Committee Nominations <i>Betsy Roberts</i>	A motion was made and seconded to approve the Adoption of the Minutes from August 12, 2020. <ul style="list-style-type: none"> • Motion by Linda Lovett • Second by Barbara Chastain 	<i>No Action Required</i>
III. Review Action Log from August 12, 2020 <i>Betsy Roberts</i>	85. Paul Van Doren will lead the creation of a presentation to guide consumers through transitioning in/out of SNF/assisted living. Provide Anna Swartz with input on draft community transitions presentation. (Items #85 and #106 combined) The idea for this action item was to create a document that can be posted on the website to assist people on how to prepare in making the transition in and out of skilled nursing facilities. <ul style="list-style-type: none"> • Those in attendance learned Paul Van Doren has retired from the Community Access Center. • Ben Jauregui volunteered to take the lead on this project if there are no objections. Lisa Hayes also volunteered to assist with the project. • No objections to Ben Jauregui taking lead on this action item. 	<i>Pending</i>
	88. Follow up on Aurrera flyer cost and how Health Plans can assist. <ul style="list-style-type: none"> • Copies of the flyers were provided to the CCI Advisory Committee. • The primary questions are related to the cost of printing the flyers and who is the target audience. • No decisions were made related to which agencies might be able to cover the cost of the flyers. 	
	114. IEHP and Molina to develop and publish an intake form, resource links criteria, and legal disclaimer language for the CCI website. <ul style="list-style-type: none"> • Hector Garcia had taken the lead on this action item with updates to be presented at the next CCI Advisory Meeting on October 20, 2020. 	
IV. Physician/Provider Topics	Kristine Loomis states that as a client when there are changes in insurance it has been difficult for her to find a Provider that can do MD Live or an appointment by phone because she was not assigned a general practitioner when COVID-19 happened. She adds that IEHP was very good with her and was finally able to	<i>Pending</i>

Agenda Item	Discussion of Agenda Items	Action
	<p>get her a virtual/telehealth appointment. She states that this could be a problem because general practitioner do not want to see you on a telehealth appointment unless they have seen you in-office/in-person first, especially as a new patient to their practice. Kristine adds that this is something she would like to put out on the table to see if there are alternatives or solutions in the event someone with disabilities or high risk cannot do an in-office appointment, as social distancing would not be accommodated if public transportation was requested through Medi-Cal benefits. She states that this is for her an unnecessary risk.</p> <ul style="list-style-type: none"> • Hector Garcia will follow-up with the IEHP Provider Services team to see if this is an overall topic of concern. 	
V. Outreach Events	<p>A. Outreach Activities provided/presented by Monika Vega:</p> <ul style="list-style-type: none"> • Harbage Consulting is now known as Aurrera Health Group • Aurrera Health Group is working on CCI material specifically for stakeholders. It is a poster with comparisons of Cal MediConnect benefits to that of original Medi-Cal and Medicare benefits. <ul style="list-style-type: none"> ○ It will be distributed to all applicable CCI counties, such as the Inland Empire. <p>B. Aurrera Health Group Outreach Activities provided/presented by Cassidy Acosta:</p> <ul style="list-style-type: none"> • Participated in numerous health fairs from November 2019 to March of 2020, before the stay-at-home order was initiated. At these events, their outreach specialists met with Seniors, people with disabilities, caregivers, family members, advocates, and the community. They supported the community by providing educational materials regarding Cal MediConnect benefits and options, distributed flyers, tool kits and held informed discussions when participants had questions/concerns and the coordinated care initiative. <ul style="list-style-type: none"> ○ 2019 Annual Caregiver Resource Fair in Moreno Valley ○ Inland Valley Recovery Services Thanksgiving and Christmas Resource Fairs in San Bernardino ○ 8th Annual Ability Festival in Palm Desert ○ Indio Health and Wellness Fair ○ Provided beneficiary presentations were held at senior apartments, senior centers, and CBAS Centers in January and February of 2020. ○ Provided a presentation in collaboration with Molina and IEHP (Ben and Hannah) to Riverside Counties Office on Aging ○ Since stay-at-home order they have provided virtual webinars including to advocates who participate in the Latino Collaborative ○ December 6, 2019 Cal MediConnect Senior and Caregiver Health and Resource Fair <ul style="list-style-type: none"> ▪ About 30 exhibitors ▪ Over 80 attendees ○ July 9, 2020, they hosted the Inland Empire Virtual Resource Fair ○ From April to August they have also been participating in virtual networking 	<i>No Action Required</i>

Agenda Item	Discussion of Agenda Items	Action
	<ul style="list-style-type: none"> • Upcoming Events: <ul style="list-style-type: none"> ○ Virtual events and webinar presentations ○ Teleconference presentation for the San Bernardino County IHSS Advisory Committee Meeting in October • Updates: <ul style="list-style-type: none"> ○ The most recent CCI Stakeholder webinar was held on June 11th. The webinar recording can be obtained online at CalDuals.org ○ July 22nd DHCS released that they are seeking a 12-month extension of the federal waiver for the Medi-Cal 2020 <p>B. CBO Needs</p> <ul style="list-style-type: none"> • None reported. 	
VII. Stakeholder Experience	<ul style="list-style-type: none"> • CBAS <ul style="list-style-type: none"> ○ Ben Jauregui states that many CBAS center have been providing temporary alternative services via telephone, video, some in-person drop-offs or in-home visits to ensure that their members are safe and receiving services that they need. Many of these centers are still providing meals; they are dropping them off at home. Unfortunately, they are unable to provide physical and occupational therapy, but some are offering exercise classes through Facebook Live. ○ Ben adds that they are still receiving referrals to CBAS centers. • IHSS <ul style="list-style-type: none"> ○ Ben Jauregui adds that the state relaxed some of the requirements. They relaxed them for MSSP and CBAS as far as face-to-face assessments. ○ Melissa Sesay with the Department of Aging and Adult Services added that she just wanted to mention that they are still open and still doing hybrid home assessments. They are steadily getting request for changes because day centers are closed currently, so they are adjusting times. She states that she would like to apologize for the response time, as it has not been immediate, but they are working to get better on that during this time as well. <ul style="list-style-type: none"> ▪ Kristine Loomis adds that she would like to give some positive feedback regarding this topic, and states that she just had her annual IHSS assessment in Riverside purely by paper and went smooth and very easy, more so than the in-home visits. • LTC <ul style="list-style-type: none"> ○ Lisa Hayes with Rolling Start adds that they are a Center for Independent Living that serves San Bernardino Counties. Rolling Start is still open, offering all intakes and one-on-ones virtually. Rolling Start increased the number of classes offered to the consumers, to which they can register on their website. Classes include anything from emergency preparedness to cooking classes. Lisa adds that she would like to extend an offer to Cassidy Acosta from 	<i>No Action Required</i>

Agenda Item	Discussion of Agenda Items	Action
	<p>Aurrera Health Group if they would like to have a presentation for one of the groups or set up a special event for her to talk about CCI, she would be happy to make that happen. She adds that they are always looking for new offerings for their consumers because they are doing a special program with IEHP to help bridge that digital divide. They are putting Chromebook in the hands of older adults and people with disabilities. For those who do not have internet access they are paying for that as well. Part of the program is that they go through some training and must attend ten classes. After the tenth class the computer is theirs. This will hopefully help them stay connected and help them fight the social isolation that is occurring during this pandemic.</p> <ul style="list-style-type: none"> ○ Lisa Hayes adds that she would like to mention some challenges they are facing around COVID testing. They have had several cases with chair user individuals, seniors, but most cases are consumers who are blind and their ability to get COVID testing where they feel they may have been or be exposed. They do not have the transportation to get to a testing site or they do not have family members or want to risk infecting family members. Lisa would like to know how the health plans are addressing these challenges and issues. What can they do to better serve the consumers in the area? Would they offer a home health nurse to come to the house to do point-of-care testing? She adds that when you are sick, offering transportation is not a good option. <ul style="list-style-type: none"> ▪ Kristine Loomis adds that there is also an issue with submitting forms and filling them out. They must have a care provider that they can absolutely trust as these forms have all kinds of personal information, such as social security. ▪ Hector Garcia from IEHP adds that he will do some research on COVID mobile testing, and check if this is possible and hopefully have an update to provide during the next meeting. ▪ Betsy Roberts from Molina adds that they do not have mobile COVID testing. Typically, their members would interface with their Nurse Advice Line for guidance as to where to go for testing. ● Providers/Network <ul style="list-style-type: none"> ○ None reported. 	
VIII. Ombudsman Report Out and Updates	<p>Inland County Legal Services (ICLS) updates provided by Carol Carlucci for Grant Jahner:</p> <ul style="list-style-type: none"> ● Big trend with Counties still discontinuing the Medi-Cal cases even though they were told to put them on hold and were not to discontinue them for 90-days. Carol adds that when their Medi-Cal is discontinued they also get taken off there CCI case and they must get that reinstated. As part of the remediation, they have done a lot of hearings to get Members reinstated. With the case workers not being in-office and very hard to reach, having hearings is the only way to get live people to talk to. There was a big increase in hearings due to their assistance. She adds that this goes for both counties, but San Bernardino County Hearings Unit is a bit easier as they have a complaint line 	

Agenda Item	Discussion of Agenda Items	Action
	<p>where you can call in the and speak to the advocate of the day who will manage to help you. Whereas for Riverside County they have been unable to get a working Complaint Line number.</p> <ul style="list-style-type: none"> ○ Lisa Hayes adds that she will reach out to Riverside County and bring it up as an issue as she has contacts and at least alert them. ○ Carol Carlucci adds that if these cases can be resolved without having to have a hearing, that would be a lot better. As mentioned, with San Bernardino County and having an advocate for the day, that helps reduce the number of hearings that they must ask for because they were finally able to get a case worker or supervisor. With Riverside county they are having to ask for a hearing and only speak to an Appeals Specialist. ○ Melissa Sesay with San Bernardino County IHSS Department of Aging and Adult Services adds that she would like to apologize for this having been the case or experience and asks that when calling in to ask to speak to a supervisor so that they can be of assistance without it having to go as far as a hearing. ○ Kristine Loomis adds that she has a contact for Riverside County but has not used it since COVID-19. She will work on getting a number or contact to help resolve this. ○ Lisa Hayes adds that this is crucial for people on IHSS because if they do not have Medi-Cal renewed then they do not have in-home support. In-home support is a day-by-day, and if they get bumped off it is a real problem. ○ Melissa Sesay states that what they do in San Bernardino County is they try to reach out to clients once they are aware that they are without Medi-Cal to try to inform them to reach out to their eligibility worker so that they can for go them being terminated and having to get put back on to IHSS. ○ Betsy Roberts adds that since COVID started she is now on a daily call and the topic of members on hold came up in March and the health plans were trying to get permission to make calls sooner than they typically would to members on a hold status and there were quite a few delays that had nothing to do with either the County or the Health Plans. She states that that may have changed now because they have the names of the members which they were attempting to make outbound calls to alert them instead of the County having to do it to that status. Betsy add that she believes that this was not a County issue, but a State issue. 	
IX. Public Comment	<ul style="list-style-type: none"> ● Lisa Hayes with Rolling Start announces that during the last CCI meeting they were working on an Emergency Preparedness Program that has since come to fruition and a major necessity with COVID. She wanted to let them know that for San Bernardino County they have me backup batteries for Members or Consumers who have really high power needs and are in a fire safety zone and/or in threat of getting a power safety shut-off. They did not get as many as they thought they were receiving, but they have about 13 that can go to the people that have the most significant need. They will be issued as a loan because they are very expensive batteries. The application will need to 	

Agenda Item	Discussion of Agenda Items	Action
	<p>be submitted by Rolling Start. For those who may not be able to get a backup battery, they do offer an alternative.</p> <ul style="list-style-type: none"> ○ Ben Jauregui at IEHP requests details and/or a flyer with this information. ○ Paul Van Doren with Community Access Center adds that they, in Riverside County, are offering similar assistance and services as that of what Lisa Hayes described. <ul style="list-style-type: none"> ● Kristine Loomis adds that this is regarding the digital divide access programs and computers through Rolling Start mentioned by Lisa Hayes. She states that there are situations where the consumer itself cannot access a computer and the care providers need to do that for them. She would like to know if they can open the programs at Rolling Start to allow the Care Providers to participate as well as Consumers, in the situation that the Care Provider is doing this for the Consumer. This would be very helpful. <ul style="list-style-type: none"> ○ Lisa Hayes adds that they have not given that much thought but appreciates the feedback and information. ● Ben Jauregui adds that at IEHP they have been working on supporting caregivers and devised a training called Caring for the Caregiver which provided training to their behavioral and care management staff. They have the tools, resources, and are familiar with the local community-based organization and county organizations that provide support to caregivers. They put everything in a package to provide anybody who works at IEHP and needs to provide support to caregivers they wanted to make sure they had the resources, training, and tools necessary. They have a caregiver strain assessment that they can do for burnout, to which they can follow up with community resources and assistance. Ben states that this information was also sent out to providers for them to know if they come across a member who has a caregiver and that caregiver is experiencing burnout, strain or need, they can contact IEHP as long as they are a caregiver of the Member they can definitely provide some support. ● Heather Granger, MSSP Supervisor with San Bernardino County states that MSSP Case Managers and Nurses continue to see clients through phone contact and have an do have an order through the California Department of Aging to continue that until the end of February of 2021. She adds that they are seeing more clients though phone visits and their numbers have improved as a result. 	
X. Next Steps	See Action Log	
XI. Closing Comments	<ul style="list-style-type: none"> ● None reported 	
XII. Next Meeting	September 22, 2020, 1:30 pm-2:30pm	

Action Log

ACTION ITEM	RESPONSIBLE STAKEHOLDER	OPEN DATE	DUE DATE	STATUS	NOTES	COMPLETION DATE
<p>85.
